CAREER OBJECTIVE

Passionate Frontend Developer with hands-on experience in modern web technologies including React.js, JavaScript, HTML5, and CSS3. Seeking to leverage my expertise in creating responsive, user-centric web applications and my strong foundation in MERN stack development to contribute to innovative projects while continuing to grow professionally in a dynamic development environment.

TECHNICAL SKILLS

Frontend Technologies

HTML5, CSS3, JavaScript,
React.js, Redux, Responsive
Design

Backend & Database

Node.js, Express.js, MongoDB,
JWT Authentication

Tools & Others

Git, GitHub, Python, MERN Stack,
CRUD Operations

PROJECTS

MERN Stack Blog Application

Developed a comprehensive full-stack blog platform enabling user registration, authentication, post creation, and interactive commenting system.

- Implemented JWT-based secure authentication and authorization
- Integrated MongoDB for efficient data management and CRUD operations
- Built responsive UI with React.js for optimal user experience

Technologies: MongoDB, Express.js, React.js, Node.js, JWT

Appointment Booking Doctor (MERN Stack)

Developed full-stack application with scheduling, cancellation, and user management using React, Redux, Node.js, Express.js, and MongoDB.

- Implemented JWT authentication with role-based access for patients, doctors, and admins
- Built an admin dashboard featuring doctor management and booking analytics
- Integrated online payment processing for booking fees
- Designed responsive UI, applied modular code architecture for scalability

Technologies: React.js, Redux, Node.js, Express.js, MongoDB, JWT

Frontend Web Development Projects

Created multiple responsive web interfaces demonstrating proficiency in frontend technologies:

- Responsive Profile Card and Portfolio Website with modern UI/UX design

- Interactive Credit Card UI and Login Form with CSS animations
- Professional Resume template with print-optimized styling

Technologies: HTML5, CSS3, JavaScript, Responsive Design
