

SURENDER KUMAR

Backend Developer

Bilaspur, Himachal Pradesh | +91-6230182198

surenderthakur40437@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Dedicated and analytical Backend Developer with a strong foundation in server-side logic and database management. Specialized in building scalable, secure, and efficient RESTful APIs using **Node.js**, **Express.js**, and **MongoDB**. Proficient in database design, authentication protocols, and optimizing backend performance. Eager to leverage technical expertise to develop robust server solutions and contribute to a dynamic development team.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), SQL, HTML5
Backend:	Node.js, Express.js, RESTful APIs
Databases:	MongoDB, MySQL, Mongoose
Authentication:	JWT (JSON Web Token), OAuth, Bcrypt
Tools:	Git, GitHub, Postman, VS Code, npm, MongoDB Compass
Core Concepts:	Database Schema Design, API Security, Server Optimization, MVC Architecture

PROJECTS

Inventory Management System [\[Live Demo | GitHub \]](#) Node.js, Express.js, MongoDB

- Architected a robust backend for tracking stock levels and product management using **Node.js**.
- Designed and implemented efficient **MongoDB** schemas for handling large product inventories.
- Developed secure API endpoints for real-time analytics and implemented **CSV File Upload** processing on the server.
- Implemented clean **MVC architecture** to ensure code maintainability and scalability.

Doctor Appointment Booking System (Prescripto) [\[Live Demo | GitHub \]](#) Node.js, Express.js, MongoDB

- Built the complete server-side infrastructure for a comprehensive healthcare appointment platform.
- Implemented secure **Authentication & Authorization** (Admin, Doctor, Patient) using JWT.
- Created complex API routes for doctor listing, appointment scheduling, and user profile management.
- Optimized database queries to ensure fast response times for search and filter functionalities.

Professional Portfolio Backend [\[Live Demo | GitHub \]](#) Node.js, Express.js, Vercel

- Developed backend services to support contact form submissions and dynamic content management.
- Configured and deployed serverless functions on **Vercel** for optimal performance and cost-efficiency.
- Implemented robust error handling and input validation to secure the application against common vulnerabilities.
- Ensured reliable integration with frontend services through well-documented API contracts.

EDUCATION

Master of Computer Applications (MCA) 2024
Shoolini University, HP

Bachelor of Arts (BA) 2021
IGNOU

Bachelor of Science (B.Sc.) in Physics 2020
Himachal Pradesh University

CERTIFICATIONS

MERN Stack Development (Professional Training) | 2026

- Completed intensive training with a strong focus on Backend technologies: **Node.js**, **Express.js**, and **MongoDB**.
- Built scalable RESTful APIs and managed database integrations for real-world applications.
