PROJECTS

Inventory Management System (Grocery Store) [[Live Demo](#) | [Frontend Repo](#) | [Backend Repo](#)] MERN Stack (MongoDB, Express, React, Node)

- Developed a complete **Full Stack** inventory system featuring a responsive dashboard for real-time stock tracking.
- Designed a user-friendly frontend using **React.js** and **Tailwind CSS**, including data visualization.
- Architected a robust **Node.js/Express** backend with **MongoDB** to handle complex product data and analytics.
- Implemented advanced features like **CSV Product Upload**, real-time updates, and secure Admin authentication.

Doctor Appointment Booking System (Prescripto) [[Live Demo](#) | [Frontend Repo](#) | [Backend Repo](#)] MERN Stack (MongoDB, Express, React, Node)

- Built a comprehensive healthcare platform enabling seamless interaction between doctors and patients.
- Developed a modern, mobile-responsive frontend using **React.js** and **Tailwind CSS** for booking appointments.
- Implemented secure **Authentication & Authorization** (Admin, Doctor, Patient) using JWT on the backend.
- Optimized database queries and API response times to ensure a smooth user experience across the application.

Professional Portfolio Website [[Live Demo](#) | [Frontend Repo](#) | [Backend Repo](#)] React.js, Node.js, Vercel

- Designed and developed a dynamic personal portfolio showcasing technical skills and projects.
- Utilized **React.js** for component-based architecture and **Tailwind CSS** for premium, responsive styling.
- Integrated backend services and serverless functions to handle contact form submissions securely.
- Deployed on **Vercel** for high availability and optimized performance.
